

A dynamic photograph of a surfer riding a massive, curling blue wave. The surfer, wearing a black wetsuit and white shorts, is positioned on the left side of the frame, leaning into the turn. The wave's face is a vibrant turquoise, while the spray and base are a frothy white.

**QUIKSILVER**  
BOARDSHORTS SINCE 1969

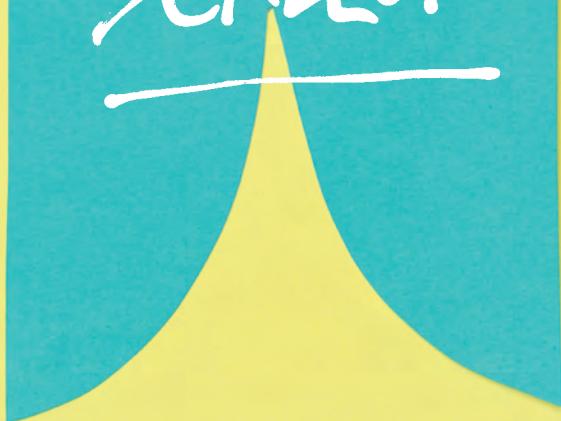

When Quiksilver Boardshorts arrived on the scene in 1969, we introduced the Vee, a Vee-shaped waistband improving fit and comfort for surfers worldwide. Next came the Scallop, merging style and function, then the Arch in 81' to maximise comfort and ease of movement. Today the innovation continues with the New Wave, the best technical fabrication fused with engineered cuts, completing this iconic set of innovative shapes that symbolize Quiksilver Boardshorts.

STANDING THE TEST OF TIME,  
SINCE 1969

When Quiksilver started in 1969 we introduced the vee-shaped waistband, improving fit and comfort for surfers worldwide. A feature that stands the test of time.

# THE SCALLOP

## THE ICONIC BLEND OF STYLE AND FUNCTION

Staying High in 79', the scallop shape merged style and function, becoming a timeless and iconic shape.

# THE ARCH

## FLOW AND FIT

Introduced in '81, the Arch panel flows with the natural lines of a surfer's body at the hip and hem.

# THE NEW WAVE

## THE HIGH POINT OF BOARDSHORT TECHNOLOGY

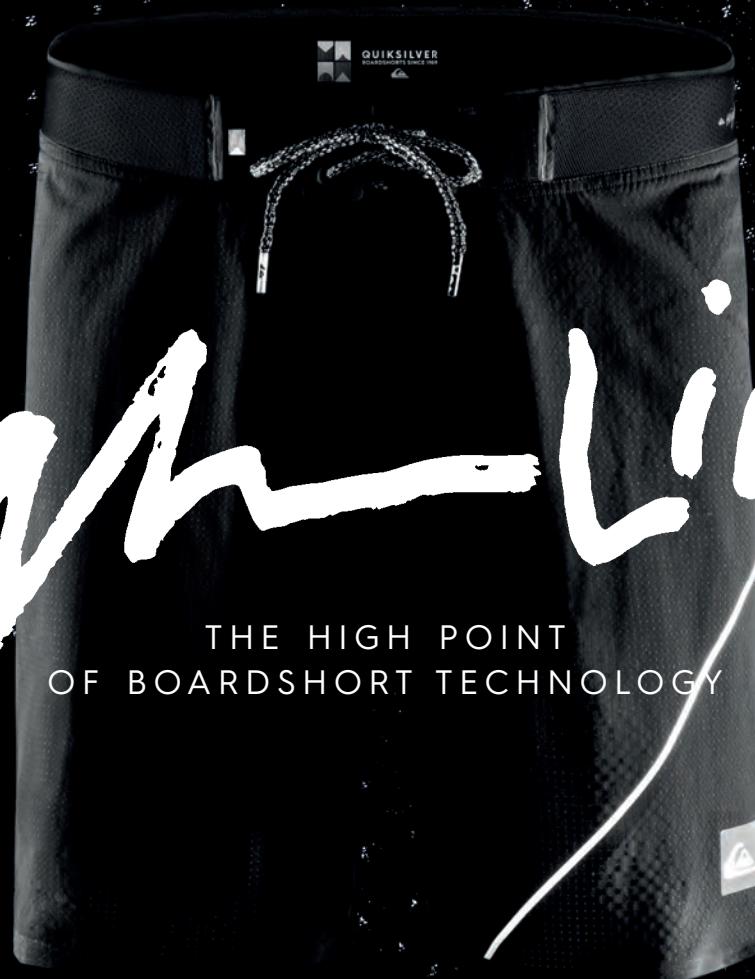

The high point of boardshort technology. The pyramid paneling houses the best in technical fabrication fused with engineered cuts providing ultimate comfort and movement.

## HIGHLITE X2

### - HIGH PERFORMANCE -

Quiksilver Highlite fabric is driven by comfort. The double layered construction utilises semi perforated channels to enhance fabric breathability and flexibility where you need it the most. An ultra-light internal layer provides an interior skin for absolute rash-free surfing.

## DIAMOND DELUXE

### - LUXURY PERFORMANCE -

Introducing Quiksilver's Diamond Deluxe fabric. A low-friction, raised pattern lining that dries faster and feels amazing next to the skin. Created using optimum stretch memory, this double weave construction features a mini diamond interior fabric that promotes airflow and limits surface area.

## RECYCLED STRETCH

### - FROM BOTTLES TO BOARDSHORTS -

Quiksilver's high quality, flat-weave, 4-way stretch REPREVE fabric is made from recycled plastic bottles, generating a positive reprieve for our planet. This traceable recycled yarn, incorporates optimal stretch providing ultimate comfort in and out of the water.
